

Wattleview P.S.
Senior Swimming Program 2018
Tuesday 30th January – Friday 10th February
(1st DAY BACK!!!)

Dear Parents/Guardians,

Due to a subsidy we have received, the cost of our program has been significantly reduced and includes the following:

- Transport (to and from the pool)
- Lane Hire
- Administration
- Entry in to the pool
- Certificates

A recent study conducted by Life Saving Victoria has shown that less than 40% of grade 6 students in Victoria can competently and confidently swim 50 metres freestyle. This is a major concern and it highlights the importance of your child getting regular access to quality aquatic education to prevent them becoming a drowning statistic or acquiring a lifelong disability or brain injury.

Our school has chosen The YMCA Swimming Lesson Program which educates students in stroke technique, water safety and decision making in and around water. Students are taught swimming technique, however combined with this, is a major emphasis to educate students on the life skills of aquatic safety and survival.

Students will participate in the following activities during the school program:

Stroke Development	Non-contact Rescue Techniques
Clothes Swimming Activities	Personal Survival Strokes and Skills
Deep Water Activities	Simulated Open Water Experiences
Lifejacket Use	Rescue Activities

All of the above skills, techniques and activities are taught by AUSTSWIM qualified YMCA Swimming Teachers in a safe and controlled environment.

Students are assessed on their Swimming and Survival Skills when placed into groups for school swimming.

On the completion of the program students will receive written feedback on their ability.

Yours sincerely,

Elaine Wilson
